

Cache2CashSM Managed Service for Safes

Intelligent Safe Networking Solution

Burroughs Cache2Cash, enables retailers to:

- Receive deposit credit for cash deposited into Burroughs SmartCash Vault
- Reduce armored service cost, using web-based reports to better manage service-level agreements
- Increase store management focus by eliminating cash handling activities
- Enforce best practices and improve staffing efficiency
 - Ensure drawer limit adherence
 - Manage change inventory with greater accuracy
 - Improve staffing model using real-time, local trend information
- Know where your cash is every step of the way
- Monitor store activity across the enterprise, in real-time, from a central location
 - Access cash totals in any and every networked safe
 - Track employee trends and behaviors from the corporate office

Advantages of Networking Your Safes

Cash counting safes offer powerful benefits to retailers:

- Labor costs are drastically lowered by eliminating cash counting activities
- Cash is stored in a secure-steel safe
- Till balancing is streamlined, with greater accuracy, using localized safe reports
- Elimination of cash exposure dramatically reduces risk of robbery

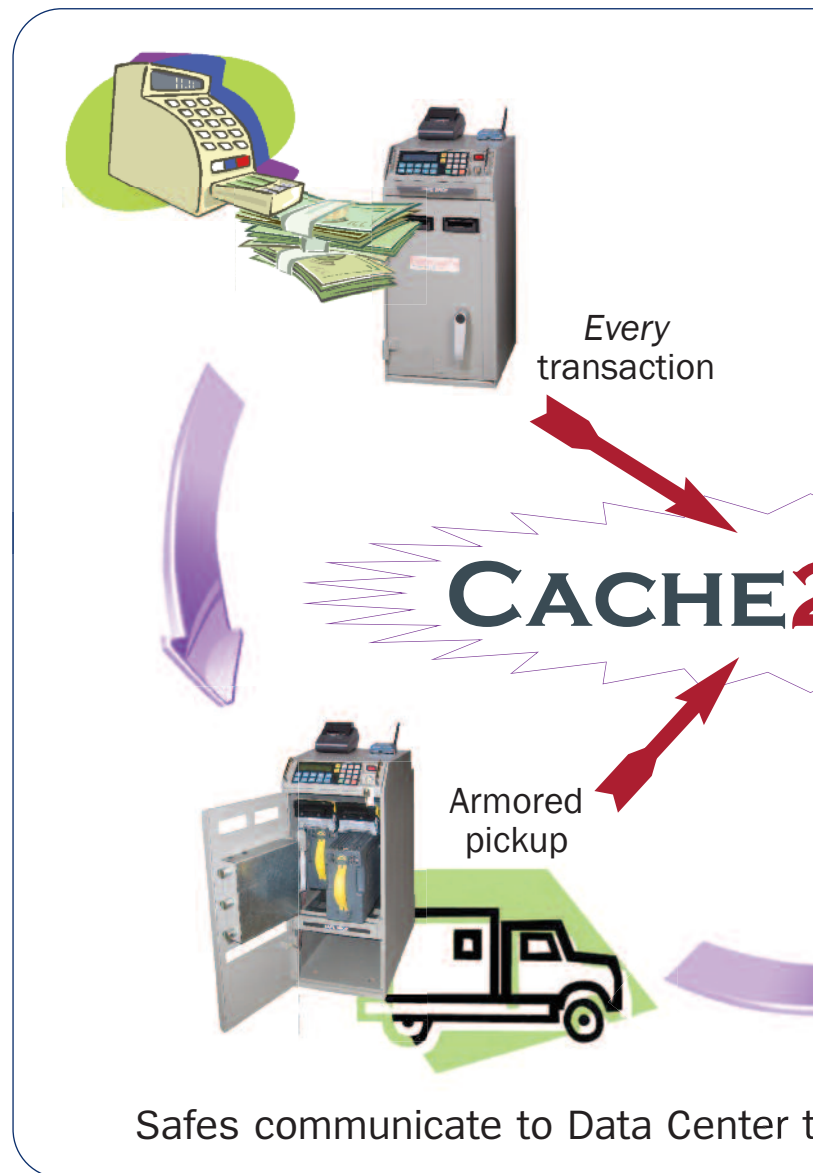

Imagine the benefits of managing your business using real-time information; data never before available to your management team. With Burroughs SmartCash Vault powered by Cache2Cash, you take the guesswork out of running your business. Better manage labor expenses, reduce cash on hand, and improve the safety and security of your most important assets: your employees and customers.

Enterprise Merchant Benefits

Capturing real-time safe activity data improves control of cash, reduces overall cash inventory, and enables decision making hours or days earlier than current methods of deposit reconciliation.

- Provisional credit for cash in safes
- Review safe cash inventory and user activity in real time
- Lower armored costs, using safe trend data to reduce pickup frequency
- Increase central visibility to deposit information, reducing treasury management costs
- Manage employee and operational standards more closely
- Reduce shrink and enhance retail security

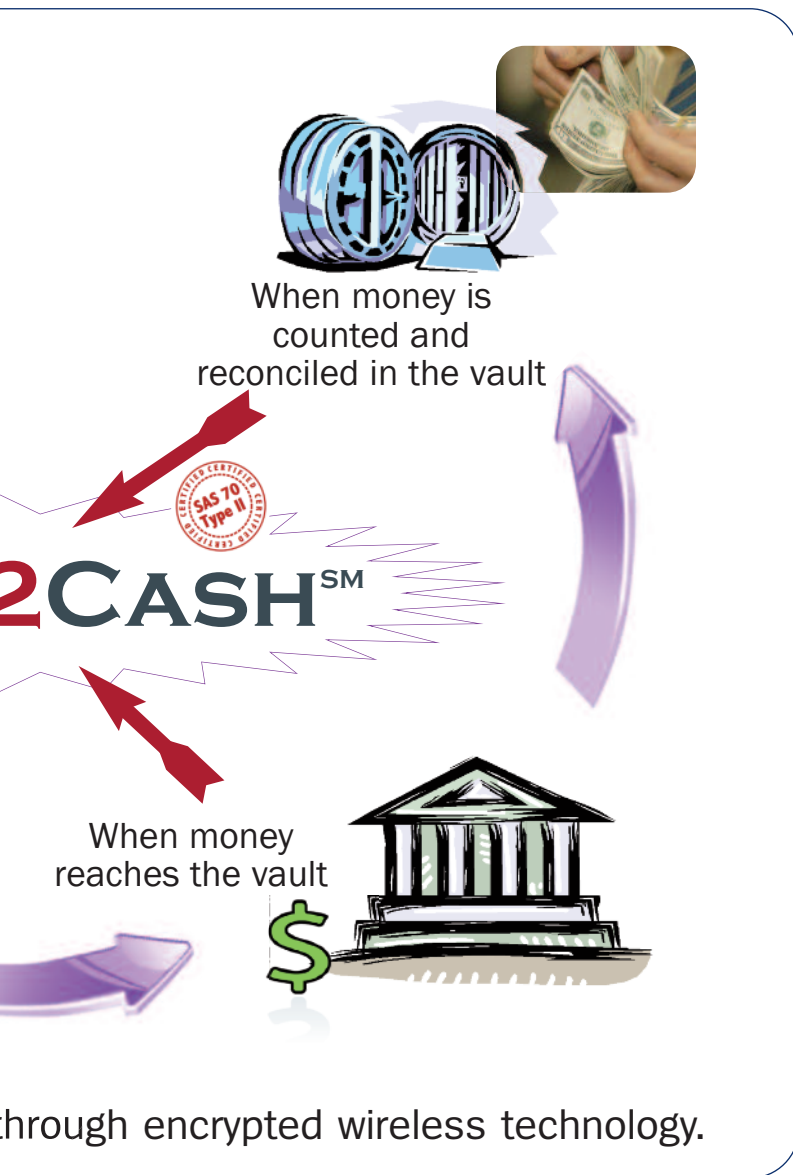

Every Transaction

Today's Cash on Deposit Tomorrow!

Every night Burroughs will transfer a standard file format of the day's transactions and reconciliations to your bank – enabling your bank to post today's cash for tomorrow's credit.

on, Every Time

Burroughs Solution includes:

- Safe
- Installation
- Networking
- Hotline support 24/7
- On-site maintenance
- Cache2Cash web reporting
- Daily bank transfer information

Closed-loop Cash Tracking and Reconciliation

Burroughs solution tracks your cash all the way through reconciliation. Once cash is inserted in the safe, no one touches the cash again. Armored pick-ups take less time while Cache2Cash is automatically updated after each courier visit. Reconciliation is simple thanks to smart-chip technology, tracking cash totals and deposit information in real time.

Option For No Armored Service

Clients who carry their cash to the bank can also take advantage of the solution using Burroughs smart-chip enabled, lockable cassettes.

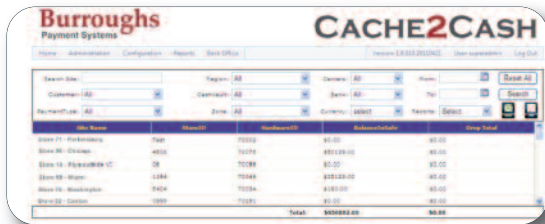

Use Your Safe – or Ours

If you already have safes installed from most major manufacturers, we may be able to network them and deliver all the benefits of the Cache2Cash service.

Banking Benefits

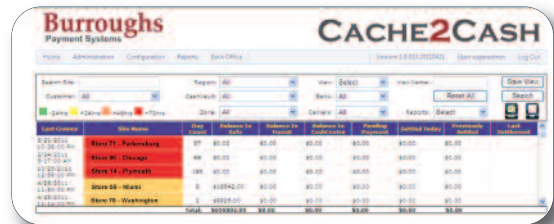

- Armored-carrier agnostic solution enables customers to select couriers based upon service excellence and cost.
- If you already offer this service through an armored carrier, Cache2Cash provides instant access to safe information using real-time reporting technology. you can receive an earlier data transfer enabling earlier client credit
